

Product Manager

Courage and perseverance have a magical talisman, before which difficulties disappear and obstacles vanish into air.

- John Quincy Adams

Ideation, Product Innovation, and Strategic Thinking -- I have a proven record of managing agile teams, creating software products and web-based platforms using both standard and extremely agile methodologies.

With data-driven decision, I represent the end user and prioritize feature development to maximize business and user value. I represent the product across the organization by breaking down the user needs, strategic vision, and delivery into achievable outcomes.

I know exactly what it takes to drive the business, rally the engagement of diverse teams, and effectively build products. I'm really a Swiss Army Knife related to Product Management.

Skills & Experiences:

» **Product Management**

- Product Strategy & Planning
- User, Technical, & Business Analysis
- Team Leadership
- Product Marketing

» **Project Management**

- Agile Development (sprint & Kanban)
- "Story" Backlog Management
- Iterative Discovery & Delivery

» **User Centered Design (UXD)**

- User Research & Analysis
- Information Architecture
- Prototyping & Usability Testing

Career Focus

Product Management: Utilize techniques and tools to research, document, plan, and manage the creation, marketing, and revenue generation of new products. Identify the needs of the customers and translate these into features and valuable solutions. Work with many product stakeholders from across diverse perspectives in the business to act as the "translator" driving the big picture throughout the entire life cycle of a product.

Interactive Marketing: Provided the planning, leadership, and management across department to ensure that the strategies, structures, systems, goals, objectives, and tactics are developed and in place to meet and exceed revenue goals. Possess a range of marketing strategies with great communication skills and moxie under pressure. Thinking creatively comes naturally as does a deep interest in what motivates customers.

Education

Mayville State University (Mayville, ND), Math & English

Professional Training

- » Certified Product Manager (CPM, studied)
- » Certified Project Manager (PMP, prior cert.)
- » Inbound Marketing Professional (Hubspot)

Industry Associations

- » Product Marketing and Management (AIPMM)
- » Project Management Institute (PMI)
- » Institute for Information Architecture (AifIA)

User Centered Design: Design products & solutions by placing the end user in focus during the entire design process. Lead user and client meetings, collect and analyze product data to determine feasibility of the product. Create Personas, task scenarios, navigation and solution hierarchies. Help wireframe and prototype the product with various levels of field study or usability testing to ensure ease of use and feasibility.

Project Management: Planned, directed and coordinated activities for projects to ensure goals were accomplished within the scope and budget requirements. Developed project plans, specifying goals, strategy, scheduling, risks, and allocation of available resources. Prepared project status reports to keep management, clients and the team informed of project issues.
